Budapest, 22 December 2014

2015 will see PannErgy Plc as a member of the CEERIUS Sustainability Index

PannErgy Plc hereby advises the actors of the capital markets that for the 2015 season PannErgy Plc has been chosen to be a member of the CEERIUS Responsible Investment Universe.

Launched in 2009, CEERIUS is the sustainability index of the Vienna Stock Exchange (Wiener Börse AG.) for the CEE region, composed of the leading companies in reference to social and ecological quality. An Austrian sustainability research firm, rfu (Reinhard Friesenbichler Unternehmensberatung) is responsible for the annual research activities and composition of the index. The scope covered by CEERIUS and the CCE research routines serves as the basis of various investment products. The sustainability index of CEERIUS is a capitalization-weighted price index that is composed of such leading companies in reference to social and ecological quality that are traded on stock exchanges in the regions of Central, Eastern and Southeastern Europe. Rfu is responsible for the sustainability research, daily calculations and dissemination are performed by Wiener Börse AG.

Our annual membership in CEERIUS has been granted to acknowledge PannErgy Plc's efforts to achieve sustainable, environmentally conscious development.
