BSE Release

Budapest, 9 July 2013

The Budapest Stock Exchange Ltd. hereby informs the investors that the General Meeting of Chemical Works of Gedeon Richter Plc. held on 25 April 2013 resolved on decreasing the face value of its shares from HUF 1,000 to HUF 100 (split). Consequently, the dematerialized Richter Gedeon shares with a face value of HUF 1,000 (ISIN HU0000067624) issued by the company shall be replaced by dematerialized shares with a face value of HUF 100 (ISIN HU0000123096).

The above event shall bring about the following measures beginning on July 11, 2013.

Spot market

Trading will be performed with dematerialized Richter Gedeon ordinary shares having HU0000123096 ISIN ID instead of dematerialized ordinary shares having HU0000067624 ISIN ID.

The nominal value will be changed from HUF 1,000 to HUF 100.

The amount of shares introduced into the stock market is modified as follows: Instead of 18,637,486 pieces of share having HU0000067624 ISIN ID, there are 186,374,860 pieces of share having HU0000123096 ISIN ID circulate on the stock market.

The tick of the shares decreases from HUF 5 to HUF 1.

BSE determines the reference price for 11 July 2013 based on the closing price on 10 July 2013 by dividing the closing price developed for Richter Gedeon shares having HU0000067624 ISIN ID by ten and according to the rules of the algebratic rounding. The reference price will be published after that.

Derivatives market

The size of contract is changed of Richter shares having HU0000067624 ISIN ID in the amount corresponding to a total nominal value of HUF 50,000 to Richter shares having HU0000123096 ISIN ID in the amount corresponding to a total nominal value of HUF 50,000.

The price interval of Richter futures contract decreases from HUF 5 to HUF 1, while the price interval value increases from HUF 250 to HUF 500.

The clearing range of contract is decreased from HUF 3,500 to HUF 350.

The rate of the daily maximum price movement is decreased from HUF 7,000 to HUF 700.

In accordance with the general provisions of Section 25.1 of the Code of Trading the opened positions on 10 July 2013 after the closing of the trading will be settled on the normal settlement prices at the end of the day, and then the positions will be further recorded by dividing the normal settlement prices at the end of the day by ten – without the settlement of the price difference – according to the rules of the algebratic rounding corresponding with the ex-setting prices and this will be the basis for the settlement of the next day. Please note that because of rounding – in accordance with Section 25.1.5 of the Code of Trading – slight negative or positive change may also occur for each position compared to the original status.

The reference price of 11 July 2013 for each maturity of the futures Richter contract will be equal with the ex-settlement prices developed this way and will be published on 10 July 2013 after the closing of the trading.

In addition, please note, that any changes due to the change of Richter shares will affect the size of Richter futures contract only by the modification of ISIN ID and the number of equities in a contract, the total value of the contract remains unchanged. If someone had for example 10 contract short positions before the corporate event, it will have 10 contract short positions after the corporate event as well, though in case of the physical

delivery at expiration it can perform with 10*500 pieces of shares instead of 10*50 pieces, since the number of shares in the contract increases from 50 to 500.

All orders that was not revoked or expired in the MMTS 1 concerning the Richter shares and in the MMTS 2 concerning the futures contracts of Richter will be cancelled on 10 July 2013 after the closing of the trading.

Indices
