

Export revenue dynamically increased in the Printing Company

Budapest, 11 August 2014 – **Export revenue increased more than one and a half times in ANY Security Printing Company in the first half of 2014. The net income improved by 36%.**

Net sales of ANY PLC for the first half of 2014 reached 11.5 billion HUF, which is higher by 30% than in the same period of the previous year. Growth in sales was due to the improvement in strategic product lines. Export sales revenue increased by 59% which amounted to 3.7 billion HUF and it is approximately one-third of ANY total turnover. The profitability of the company improved further by 31%, net income is 570 million HUF which increased by 36%.

“Our growth strategy is based on our developments. Now, it is reflected in the financial results, as well. We consider the successful presence in the export markets to be especially important. Due to the document development projects and to the R&D projects appearing in new inks ANY high value added products are successful not only in the traditional European markets, but also in Asia and Africa. The financial situation of the Company is stable and we hope that the dynamism of the first half will help to achieve another great result in the remaining period of 2014.” – commented **Gábor Zsámboki, CEO of ANY Security Printing Company PLC.**
