

Communication

In compliance with its obligation to provide notification of extraordinary events under Act CXX of 2001 on the Capital Market (hereinafter: **Capital Market Act**), **ALTEO Energiaszolgáltató Nyilvánosan Működő Részvénytársaság** (registered office: H-1117 Budapest, Dombóvári út 25, company registration number: Cg.01-10-045985) (hereinafter: **Company** or **ALTEO**) hereby provides the following information.

Aerope Holding Kft., a company consolidated within the ALTEO Group, obtained a final and binding building permit for its proprietary wind power project on May 20, 2026, marking a significant milestone in the preparation and implementation of the investment. Prior to this, the project had already secured the environmental permit, the amendment of the Local Building Regulations (HÉSZ) of the town of Ács, and compliance with aviation and national defense requirements. The project has a total grid connection capacity of 19.95 MW.

Following a hiatus of many years, this development is among the first of its kind to be implemented in Hungary, representing a new generation of turbines (consisting of two 7 MW and one 6 MW units) and is the result of nearly 18 months of intensive development, planning, and permitting efforts.

Construction is scheduled to commence in the first half of 2027, with the wind farm expected to begin commercial production for the public grid in the first half of 2028.

Budapest, June 1 2026.

ALTEO Nyrt.
